Math	<p>This week we learned how to order numbers from smallest to largest and from largest to smallest. We also learned two new words — ascending and descending. Ascending means sorting the numbers from smallest to largest, and descending means sorting the numbers from largest to smallest.</p> <p>To do this, we looked at the tens and ones place values. We learned to look at the tens first, and if the tens are the same, we then look at the ones to decide the order.</p>
