

Worksheet (1) / hardware parts – Motherboard and CPU

Name :		Subject:	Computer
Class:	Fourth Grade	Date:	/9/2025

Objectives :

- 1.study the IPOS model
2. study the difference between the motherboard and the CPU .

Hardware Parts

- What is IPOS model ?

The model gives us an idea of how computers work .

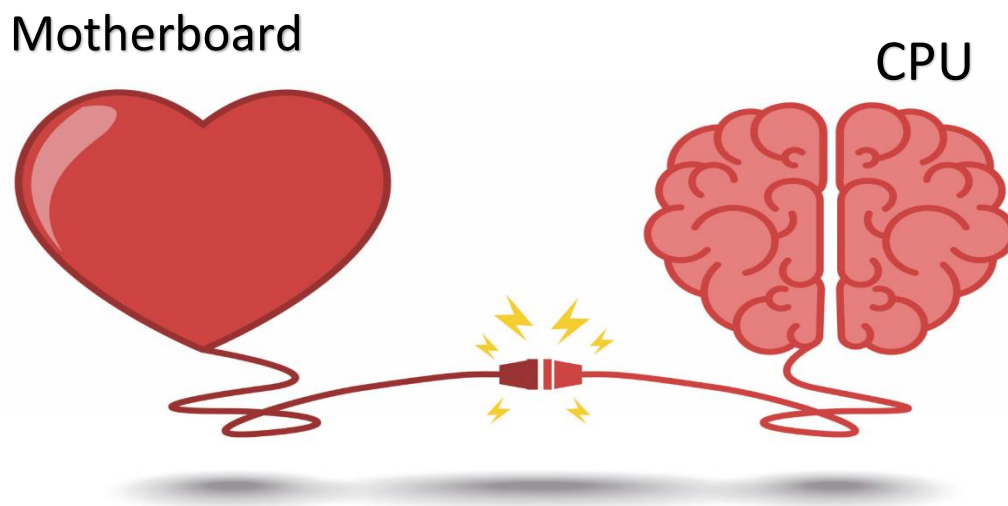

- It made up of four basic steps .
 1. I - Input
 2. P – Process
 3. O – Output
 4. S – Storage
- IPOS function and examples

IPOS	function	Examples
input	Entering data into the computer .	Microphone – scanner – keyboard - mouse .
process	It happen in the CPU .	-----
output	Where the information displayed to the user .	Printer – monitor – speakers – headphones .
storage	The place where the data is stored .	Hard disk drive – USB .

The Motherboard and CPU

The motherboard and the CPU can be found in the System Unit .

- The motherboard is known as the heart of the computer .
- Without the Motherboard , the computer can't work .
- The CPU is the brain of the computer .
- The CPU is the part where all the work takes place .
- CPUs have different numbers of cores .
- A Core is the number of processors available .
