

Dear Parents,

I hope you are doing well.

I would like to clarify that the monthly report for Listening and Reading & Usage that was sent to you is meant to keep you informed about your child's academic situation in class.

During the previous months, we spent time practicing past papers in listening, reading, and usage. Students answered the questions within a set time, and afterwards we discussed and corrected everything together.

This month, I started taking notes and giving marks so I can clearly identify each student's strengths and areas that still need improvement.

Please note that these marks are not part of their official certification grades.

They are only to help us understand your child's current level and whether they are working on their weaknesses.

I shared everything with you so you can have a clear picture of your child's academic performance in class.

Please do not panic about the marks.

For Listening, I uploaded the audio files on the LMS.

You can let your children practise them at home.

For Reading and Usage, I do not want you to start anything now.

In the second semester, I will begin sending practice papers home.

For now, please focus only on the required materials.

Thank you for your cooperation and understanding.
