

## *Study sheet #1*

### *Unit 3*

Name :

Subject:

**Layers of the Earth**

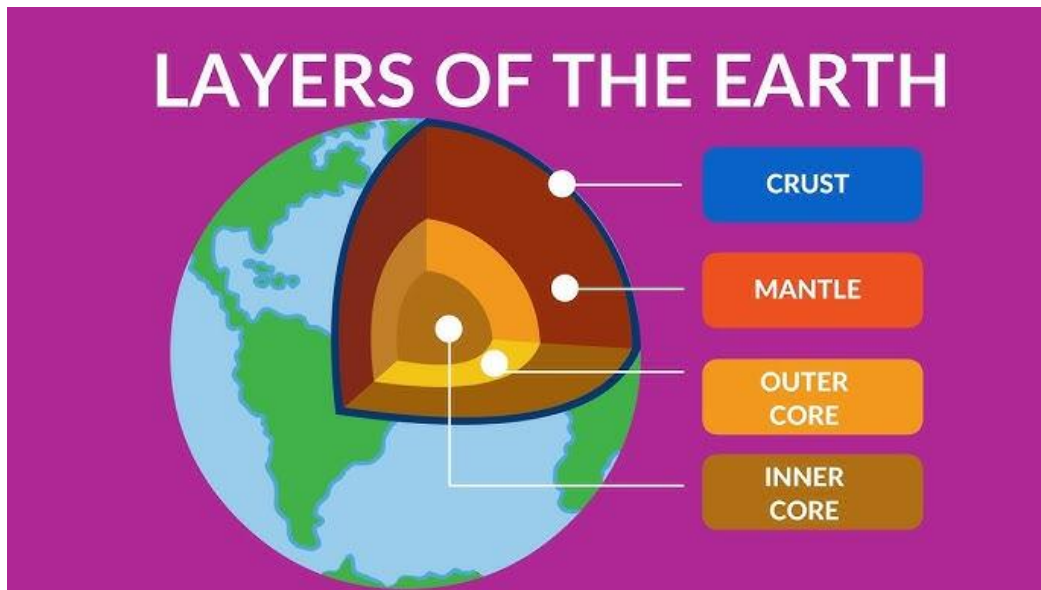

Class:

**Fifth Grade**

Date:

\*The Earth is made up of four different layers.

\*These layers are called the crust, the mantle, the outer core, and the inner core.

#### **1-Crust:**

-Crust is the thin outer layer of the Earth where we live.

-It is made of solid rock and minerals.

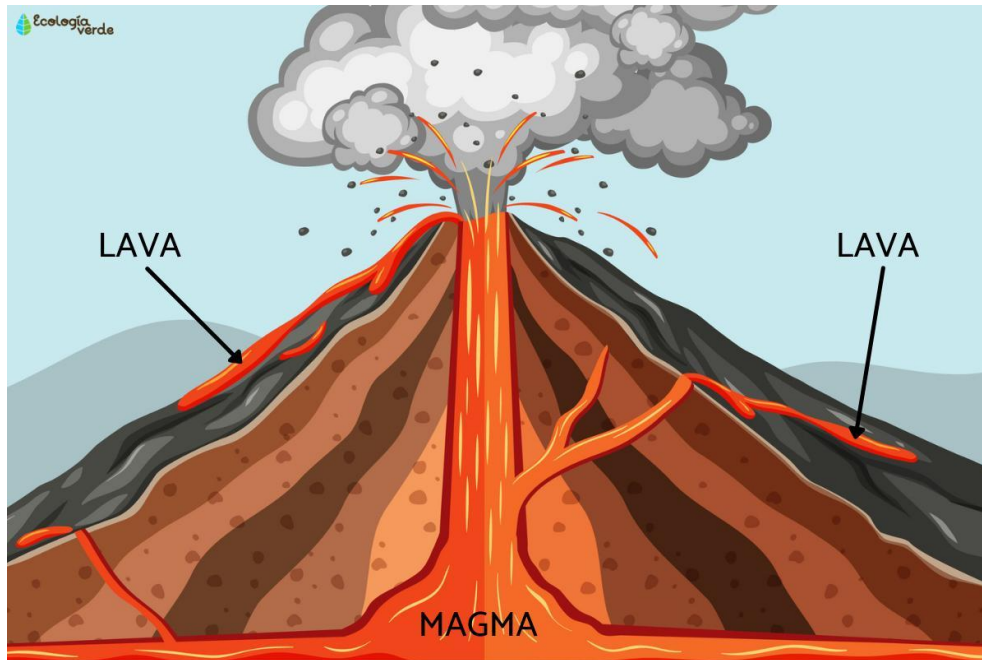

#### **2-Mantle:**

-Mantle is thicker than the crust.

-It is made of solid rocky material and magma.

\*Magma: molten rock that is under the Earth's surface.

\*When this molten rock (magma) escapes to the Earth's surface it is called lave.

### 3-Outer core:

-Made up of hot liquid iron and nickel.

### 4-Inner core:

-Made up of solid iron and nickel.
