Science Project

Each student is required to create a project on (Unit 3: Materials) . The project can be presented as either a poster, or a PowerPoint Presentation.

Note:

1. The project must be the student's own work.
2. The project will be presented in class.
3. Information should be clear and well -organised.
4. The project will be assessed based on accuracy and quality of content, organization, and clarity of presentation.
5. The project must be submitted by the 15th of December.
