

Grade 2

Subject	Material Covered in Class
Arabic	<p>*شرح مفاهيم مفرد -مثنى- جمع .. واعطاء امثلة وعرض أعمال كتابية للموضوع أمام الصف .</p> <p>*حل التمرين الخاص بالدرس من كتاب الفصل الاول .</p> <p>*من منهاج الفصل الثاني تم عرض درس الاستماع-العقبة- وحل الاسئلة من قبل الطلبة بشكل تعاوني .</p>
English	<p>We have started Unit 5 (Informal Letter features) were explained through a PPT which is uploaded on LMS.</p> <p>Reading: Students read pgs 113 and 114 texts (A, B, C) in the English Learner's Book.</p>
Math	<p>This week, we revised our <b>first semester material</b> and introduced the concept of <b>rounding to the nearest ten</b>. We began by helping students understand the <b>meaning of rounding</b>, explaining that rounding means finding the number that is <b>closest to</b> another number. We also discussed <b>multiples of 10</b>, which are numbers we get when counting by tens, such as 10, 20, 30, 40, and so on.</p> <p>Students learned how to <b>locate numbers on a number line</b> and use it to decide which multiple of 10 a number is closest to. By placing numbers between two tens on the number line, students were able to clearly see whether a number rounds <b>down or up</b> to the nearest ten.</p> <p>Next week, we will extend this skill by learning how to <b>round 3-digit numbers</b> to the nearest ten.</p> <p>Please Refer to LMS for Resources.</p>
French	General revision , Learners book page 62 ex 1 and 2 .
Science	Unit 5 explanation ( Forces) PPT is on the LMS
Christian Education	تم البدء بدرس يسوع يشفي المرضى وعرض توضيحي من معجزات يسوع المختلفة وطرح اسئلة متنوعة على الطلبة من محتوى الدرس
